Education

Bachelor of Engineering (B.E), Electronics and Communication Engineering

ACS College of Engineering, Bengaluru (2019 – 2023) CGPA – 6.7

Technical Skills

Programming Skills –
- JavaScript
- Git
- V Lookup and H Lookup
- MongoDB
- Node JS
- Boot Strap
- HTML 5
- CSS 3
- React JS

Developer Tool -
- Visual Studio Code
- Version Control Tool : Git
- Design Tool : Figma

Courses / Training

Course title – JavaScript(Basics), JavaScript(Intermediate), Problem Solving

Provider: Hacker Rank

Date Completed: Dec 2023

Skills Learned: JavaScript is a high-level, interpreted programming language. This means that it is easy to read and write, and it does not need to be compiled before it can be run. JavaScript is also a prototype-based language, which means that objects inherit properties from other objects
